Portraits inspired by Picasso: an art project…

Explore the 'Cubist' portraits of Picasso (a Google images search would help) – what do you notice about the features? How are the faces constructed? What is different about his style? What do you think 'Cubist' means?

Have a go at drawing a portrait in a Cubist style, use one of the charts below to 'Roll a Picasso' – all you will need is a dice, pencil and paper…

Once you have a good portrait or have collected some ideas try making a 3D version with old cardboard boxes….

Think about how you could use some recycled bottle tops or packaging to make 3D elements in your portrait.
