

## Spring Weather

The sun is shining when nobody can come out,  
The cotton clouds are scattered all about,  
The wind is pushing every train,  
The sun is reflecting off of a lonely plane.

The birds start their soft whistle again,  
It's the perfect weather to build a den,  
The streets are silent,  
The roads are redundant.

Lots of flowers are starting to grow,  
The sun is beginning to glow,  
There are lots of rainbows with the colour  
indigo,  
All of the grass needs a mow.
