

RECEPTION NEWS

WB: 8th March - 26th March 2021

Welcome back

It has been so lovely to see the children back in school this week. On the whole they have settled back in really well and it's like they have never been away! Thanks again for the support you gave your children during lock down and for engaging so well with the home learning.

PE reminder

Just a reminder that when it is a PE day your child still needs to wear clothes that follow our school uniform policy. So they need to have **only navy or black** jogging bottoms or leggings, a white t shirt and their normal school jumper or cardigan. They can come to school wearing their trainers or they can bring them in a bag to change into.

Thank you for your support with this matter.

Read Write Inc

The children have started in their RWI groups that we put them in after half term. If your child had a reading scheme book then please look on Tapestry for a video explaining how to use them at home. Please continue to read the books they bring home, as often as you can as this will help to build their confidence with reading.

Nursery Rhyme

Next week we will be starting to learn some Easter rhymes.

Literacy Tree

Next week we will start a new text called Little Red which is a version of the Little Red Riding Hood story. We will look at the book over the final two weeks of the half term.

Dates for this half term

Friday 19th March - Comic Relief where your child can come dressed as a superhero of their choice.

Friday 26th March - School finishes for the Easter holidays

Monday 12th April - School returns.

Artist focus

As you know our artist focus this half term is Kandinsky. This week we are using circle shapes to print with to make our own pictures and next week we will be cutting out different sized circles and fitting them on top of each other to make a tile.

Maths

This week in maths we are continuing to think about numbers 6, 7 and 8 and also how to combine two groups. Next week we will move onto height and length where we will be measuring ourselves and things around the classroom using non standard measures such as unifix. At home you could talk about things that are taller and shorter than your child and compare objects using the language of longer and shorter. The last week of the half term, we will focus on time.
