(In School) Thurs 16th
Dec**

How can I help?
Please see our Year
group website for
homework, letters and
how to contact us.

How can we help?
If you have any queries
or concerns, please
speak to your child's
teacher. If you have
any questions about
your child's time in Year
5 please let us know.

English

In English, we are finishing our work on 'Kasper the Prince of Cats', the children have very much enjoyed learning all about the historical aspect of the Titanic! In the second part of this term, we will be covering a new book for the year group: Tar Beach by Faith Ringgold. We are really looking forward to working on this book with the children and linking it to our Geography work on New York.

Maths

In Maths this term we will be continuing to work on structures of multiplication learning about factors, multiples, square and prime numbers. We will be using this understanding to solve different calculations.

In the second part of the term, we will be moving onto a Geometry focus looking at perimeter, area and angles.

Science

In Science this term the Year 5 focus will be on forces. The children will explore many different types of forces, enabling them to have a wider understanding of the natural and applied forces in our world.

Foundation subjects

In Geography this term we are comparing London with a contrasting locality. This locality is New York.

In Art we are looking at perspective drawing and relating this to the drawing of buildings.

In RE the children are learning about how different religions can have an impact on society.

In PSHE the children are learning about how people can make good decisions with money.

Homework.

We expect the children to complete at least half an hour of 'Maths Whizz' practice each week gaining at least 3 progressions. Homework will continue to be on Google Classroom and we have been very impressed with the quality of work produced.

Be all that you can be...
