An update from...
SCHOOL COUNCIL

News updates from Sheringham Community Primary School & Nursery

Our focus is:
SUSTAINABILITY

In our recent School Council session, we focused on a hands-on project to improve our school's sustainability efforts. Together, we spent time organising and tidying the playtime equipment shed, ensuring that everything was properly stored and easy to access.

This activity not only helped create a tidier and more efficient space but also linked directly to our commitment to sustainability. By organising the shed, we made sure that items like sports equipment are kept in good condition for longer, reducing the need for replacements and helping to cut down on waste.

This initiative is part of our ongoing work to promote environmental responsibility within our school. It's a great reminder that sustainability is about more than just recycling – it's also about taking care of the things we already have.

The School Council is excited to continue finding ways to help our school be more eco-friendly, and we encourage everyone to think about how small actions like this can make a big difference for the planet.
