An update from...
SCHOOL COUNCIL

News updates from Sheringham Community Primary School & Nursery

Our focus is:

SUSTAINABILITY

We want to take care of our planet, and we want to do even more! That's why we're focusing on sustainability. We want to make sure our school is as kind to the environment as possible. It's all about finding new ways to save energy, recycle more, and protect the world around us.

Our school is already doing lots of great things to look after our planet. We have solar panels that use sunlight to make electricity and our school grounds are full of trees and green spaces, which are great for nature. We recycle our paper, turn off lights and computers when we're not using them, and keep doors closed to stop the heat escaping.

These little actions make a big difference! We're excited to do even more, and we hope everyone in our school will help us along the way. Let's work together to keep our planet happy and healthy!
